Announcing Marion CDC's Urgent Home Repair Supplies Pilot Project

Dear Friends & Neighbors,

Marion CDC is excited to announce our summer 2018 pilot project to distribute materials & supplies for urgent home repairs in the City of Marion. Thanks to donations from Spencer's Hardware, we currently have a large selection of home repair supplies to contribute to urgent home repair projects city-wide. Available supplies include:

Electrical: outlets, switches, dimmers, light fixtures, fixture covers, light bulbs

Plumbing: fittings, valves, rings, gaskets, faucets, water filters

Building: nails, fasteners, bolts, staples, tubing, plywood clips, Quikrete concrete repair tubes

Heating/Cooling: digital thermostats, vent covers, kerosene heater parts

Household: oven replacement parts, weather-stripping, door/window hardware, dryer vent kits, doorbells, shelf brackets, door & drawer knobs & pulls, outdoor gate latches and MORE

We would love to move these supplies into homes that need them. If your organization serves any family whose home could benefit from a donation of repair materials, please take part in this pilot project. We are trying to keep the process simple, so at this time we have just a few basic requirements from potential recipients:

1. Homes to be repaired must be inside the City of Marion.
2. Requests must come from a local service agency, community group, or non-profit organization, and the contact person must be a representative of the referring agency/organization.
3. Your organization should submit one Agency Information Sheet along with a separate Supply Request form for each household you are assisting.
4. The request form must be completed and returned to Marion CDC by July 15th 2018.

Other important things to note:

- We will donate supplies we have on hand & we may not have what is requested
- Marion CDC cannot provide labor or installation services for repairs at this time
- We will notify applicants by August 1st if we are able to provide the requested supplies

Please contact Marion CDC with any questions by calling Heather Cotton at City Hall 652-3551 or by email: heather@marioncdc.org. Thank you!
